Non-Compaction Trash Container

These Standard Non-Compaction Containers are engineered for reliable, everyday waste collection across a wide variety of commercial and industrial environments. Built to industry-standard specifications, these highly durable dumpsters are constructed from heavy-duty steel to easily withstand daily wear and tear. Standard units are finished in a weather-resistant coating and come equipped with durable, double-walled lids, as well as four 6-inch heavy-duty casters (two fixed and two swivel) for smooth and reliable mobility around your facility.

Options and Specifications

11-gauge steel construction, 6-inch heavy-duty phenolic resin casters, 3/16-inch steel front-load fork pockets, 1-1/2-inch cold-rolled steel rear-load trunnion bar.

*Additional options/customizations available upon request
